Desert Spring Products Enters New Ownership Era CEO offered full ownership opportunity

MISSISSAUGA, ON – After nearly 10 years of ownership, Calgary-based Cavendish Investing Ltd. has sold its majority interest to Desert Spring Products CEO and business partner, Peter VanderPlaat. According to VanderPlaat; “Cavendish Investing Ltd. has been an ideal partner to help guide Desert Spring Products through its early growth stage into a stable business with a strong positive outlook. To be given a chance for full ownership at this time is an exceptional opportunity and I look forward to continue to build the momentum we established in recent years”.

Day-to-day operations will continue as usual, but as a result of the restructure, the company will change its name to Desert Spring Eco-Products Ltd (‘DSEP’). The company expects future growth prospects to continue to flow from its patented water-conserving humidifier technology as well as other synergistic product opportunities currently under evaluation.

DSEP is a private company with a vision of significantly increasing its presence in the North American whole house indoor air quality market. DSEP currently develops, manufactures, and markets a patented line of premium humidifiers and related products. Distribution of the Desert Spring Humidifier began in 1997 and has since expanded across Canada and to the United States.
