Desert Spring Products Appoints Ontor Limited as Distributor
Representation for Canadian HVAC Channel

MISSISSAUGA, ON . Desert Spring Products (DSP) is pleased to announce it has reached an agreement with Ontor Limited to distribute its unique line of award-winning and patented water-efficient humidifiers to HVAC Wholesalers throughout Canada.

According to DSP's CEO Peter VanderPlaat, the company has seen considerable growth since its acquisition of Thermolec's by-pass humidifier business in June 2008. DSP has also benefited from a rise in demand for cost-effective water-efficient alternatives to ordinary flow-through humidifiers. The message regarding the significant opportunity for water savings is finally reaching water conservation decision-makers and we anticipate they will soon respond with consumer rebate programs similar to what is currently available for water-efficient toilets, according to VanderPlaat. Ontor President Robert Elder commented; We like their focus on green technology and believe DSP holds strong growth potential for our HVAC customers.

DSP is a private company and winner of the 2008 Frost & Sullivan Best Practices Award. DSP is Canada's only major furnace-mount humidifier OEM with a near-term vision of significantly increasing its presence in the North American IAQ market. DSP currently develops, manufactures, and markets a patented line of premium humidifiers and related products. For more information on Desert Spring Products, visit www.desertspringproducts.com
